

Baked Corn Pudding

By: Mary J. Roe (Matthews)

From: Her son, Paul Matthews

1 can cream corn
1 tbs cornstarch
1 cup milk
2 eggs beaten
3 tbs sugar
Pinch of salt

Beat together the milk, eggs & cornstarch

Mix together all and bake 400° for about an hour, until it is "set good" like pudding.
I usually double the recipe.

One of my memories of my mom is the story she told of her and Dad on their honeymoon. Mind you, it's August and very hot. They were on their way to Luray, VA and they bet each other to see who could take the heat or give up. So they rolled up their windows and turned the heat on "High." Do I have to say more? Mom won....They were nuts. -Paul-
